

## What are the 13 leading Green TRANSPORT think-tanks in Brussels in 2024 ?

[Transport & Environment](#) is a green transport **generalist** think-tank ( working on 11 different [topics](#) ). It is Europe's leading advocate for clean transport.

On the theme of **urban mobility**, [CIVITAS](#) "is one of the flagship programmes helping the European Commission achieve its ambitious mobility and transport goals, and in turn those in the European Green Deal – it does this by acting as a network of cities, for cities, dedicated to sustainable urban mobility" ; [Clean Cities](#) aims "to spark a healthy competition between Europe's city leaders to go further and faster in the race to transition to zero-emission mobility by 2030" ; [MobiliseYourCity](#) is a "global Partnership of more than 100 partners for sustainable urban mobility planning", including 74 member cities with a combined population of over 130 million people, and 16 member countries ; the [EuropeanMobilityWeek](#) "is the European Commission's flagship awareness-raising campaign on sustainable urban mobility, it promotes behavioural change in favour of active mobility, public transport, and other clean, intelligent transport solutions" ; [POLIS](#) "is the leading network of European cities and regions working together to develop innovative technologies and policies for local transport" ; [UITP](#), the International Association of Public Transport, is the only worldwide network to bring together all public transport stakeholders and all sustainable transport modes ; and the [EU Urban Mobility Observatory](#) "facilitates the exchange of information, knowledge and experience in the field of sustainable urban mobility".

The [European Cyclists' Federation](#) is a Brussels-based independent non-profit association dedicated to achieving more and better **cycling** for all in Europe.

The [Platform for electromobility](#) promotes **electromobility** and strives to develop solutions to electrify European transport.

[ERTRAC](#) ( European Road Transport Research Advisory Council ) is the European Technology Platform ( [ETP](#) ) for **Road Transport**. Supported by the European Commission, its mission is to provide a framework to focus the coordinated efforts of public and private resources on the necessary research activities. It can work for example on the question of [Freight decarbonization](#) and on the subject of [Light Electric Vehicles](#).

The [Clean Shipping Coalition](#) "is an international association of civil society environmental protection organisations, and the only one with a purely **shipping** focus". It helps "develop and drive global environment and climate laws on shipping".

And finally, [Eurocities](#) is a think-tank with several green working programmes, including [Mobility](#). It is "prioritising the design of safe, climate-resilient, and inclusive streets and spaces" and is "mainstreaming zero-emission mobility in cities, which involves making electric and active mobility the norm rather than the exception".
